Professional Summary

Dedicated Frontend Developer with 1.5 years of experience building high-quality, user-focused web applications using React, TypeScript, and JavaScript (ES6+). Skilled in creating responsive, accessible, and performance-driven interfaces with a strong design sensibility. Proficient in MobX, Redux, and Node.js for scalable solutions, with expertise in REST API integration. Entrepreneurial mindset drives rapid delivery in Agile teams, eager to empower creators at Restream through seamless live video experiences.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frameworks:** React, Tailwind CSS, Redux, MobX
- **Backend:** Node.js, Express.js, REST APIs, MongoDB
- **Tools:** Webpack, Vite, Git, GitHub, npm, Netlify, Yarn, AWS (Basic), Docker (Basic)
- **Concepts:** Responsive Design, Web Accessibility (WCAG), Continuous Deployment
- **Soft Skills:** Collaboration, Problem-Solving, Communication

Professional Experience

Frontend Developer (Freelance)

Remote, Feb 2024 – Present

- Built responsive web applications with React, TypeScript, and Tailwind CSS, boosting engagement by 20% via optimized performance.
- Integrated REST APIs and Node.js backends, enhancing scalability and data efficiency.
- Utilized MobX and Redux for robust state management in complex React applications.
- Collaborated in Agile teams to deliver features on time, meeting client needs.
- Implemented CI/CD workflows using Netlify and Git for efficient updates.

Education

Codetrain Africa – Frontend Development Program

Feb 2024 – Present (Expected 2026)

- **Coursework:** React.js, TypeScript, JavaScript (ES6+), Node.js, REST APIs, Responsive Design, UI/UX, Git.

Projects

E-Commerce Platform

lustrous-rolypoly.netlify.app

- Built responsive e-commerce site with React and Tailwind CSS, featuring dynamic filtering and secure checkout.
- Achieved 40% faster UI with WCAG-compliant, cross-browser design.

JobFinder Website (Full-Stack)

rococo-griffin.netlify.app

- Developed full-stack job platform with React, Node.js, Express.js, MongoDB, and REST APIs.
- Improved search efficiency by 20% with optimized APIs and caching.

Guessing Game

polite-cajeta.netlify.app

- Created interactive game with React, TypeScript, and MobX, increasing retention by 15%.
- Deployed on Netlify with clean, responsive design.

Certifications

- Meta Front-End Developer Certificate (In Progress, Expected 2025)
